

## ADMINISTRATORUL SPECIAL

Paul POPOVICI\*, Liana-Iulia PETRUȘ\*\*

**Abstractn :** The special administrator: The special administrator is a new institution introduced in the Law no. 85/2006 that regards the insolvency, without being though a matter of absolute novelty. By creating and instituting it, the legislator had in view the creation of a complex mechanism for protecting not only the creditors' interests, but also those of the associates/shareholders. Even so, despite having undergone a number of serious changes, the reglementing still needs further improvements.

**Key words:** special administrator, insolvency, designation, tasks, correlation.
