

## DOCTRINA CA IZVOR DE DREPT

Ion FLĂMÂNZEANU\*

### *Abstract :*

Nowadays the doctrine takes a very significant place in studying the juridical phenomenon.

The modern doctrine analyses more largely the law spirit than legislative texts; this happens because the doctrine is based not only on law, but also on jurisprudence.

Nowadays the doctrine plays an indirect powerful role on legislation elaboration.

**Keywords:** reform, classic school, decisions, progress, law source.
