

ESTE RESPECTAT PRINCIPIUL SEPARAȚIEI ȘI ECHILIBRULUI PUTERILOR ÎN STAT ?

Andrei CONSTANTIN*

Abstract

Regardless of the degree of flexibility of working relationships between power, to maintain separation and balance, it is necessary to delimit us first for any duplication of functions (powers conferred each) any substitution, and on the other hand - to make distinction between collaboration, mediation and intervening.

Key words: under the minister of justice, independence hierarchical control, collaboration, mediation, intervening, power less equal.
